Semester: 01, 2024/2025

## User Acceptance Test (UAT) Document

Project: Al-Muneer Online Portal

Version: 1.0

Appendix: APPENDIX E — UAT

### Document Overview

This document records the user acceptance testing performed against the Al-Muneer Online Portal, following the test cases defined in the Software Test Documentation (STD), Version 1.4. For each test case, the actions performed, the expected results, the observed outcome, and supporting screenshots are recorded below.

|               |                      |
|---------------|----------------------|
| Test date     | 29/06/2026 20:27 UTC |
| STD reference | Version 1.4          |

### Performed by

1. **Visitor** — public pages (/ , /inquiry, /feedback, /payment/upload)
2. **Administrator** — admin dashboard (/admin/\*)

### Summary

|                  |    |
|------------------|----|
| Total test cases | 38 |
| Pass             | 38 |
| Fail             | 0  |
| Blocked          | 0  |

Screenshots are stored under *test-execution/uat-screenshots/* and are referenced as figures below each test case table. Figure labels follow the format “Figure ⟨test case no.⟩ ( ⟨letter⟩ )”, for example Figure 2.2 (b) denotes the second screenshot captured for test case 2.2.

# PART 1

## VISITOR MODULE (PUBLIC WEBSITE)

### Description:

This part covers visitor-facing functionality on the public website: venue information, media gallery, the availability calendar, the pricing panel, booking inquiries, payment proof upload, and feedback submission.

### Performed by:

1. Visitor (public browser)

## 1.0 View Venue Information & FAQ
